

# Lead Popup Window:

A great lead generation tool that allows you to connect with your consumers IMMEDIATELY. Baynet has previously deployed this lead capture technology in our ListingProducer.com™ Single Property Domain sites and now have added it to your now e-Agents website.

**IMPORTANT** – The feature is currently “turned off” or disabled and you **MUST** activate or turn it on to take advantage of the tool!

Here is how and what it looks like:

## Enabling Lead Window:

- i. Start by clicking the “My Website” tab.
- ii. Click on “Lead Popup Window”.
- iii. Select “Enabled”.
- iv. Change the message that will appear on the window.
- v. Click “Save” when complete.

## EXAMPLE OF THE LEAD POPUP:
